

Aura Theme

**Hi there, your handle is reserved.  
Your handle is @auratheme**

Change handle

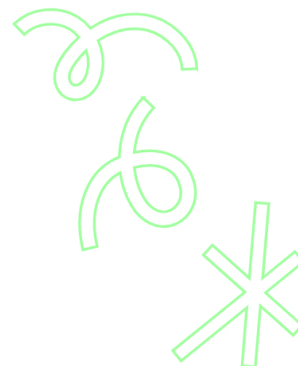

Your additional channel URL is

[youtube.com/@auratheme](https://youtube.com/@auratheme)

## What is a YouTube handle?

A YouTube handle is a new way for people to find you and connect with you. Unlike channel names, handles are unique to each creator, making it easier for you to establish a distinct presence on YouTube.

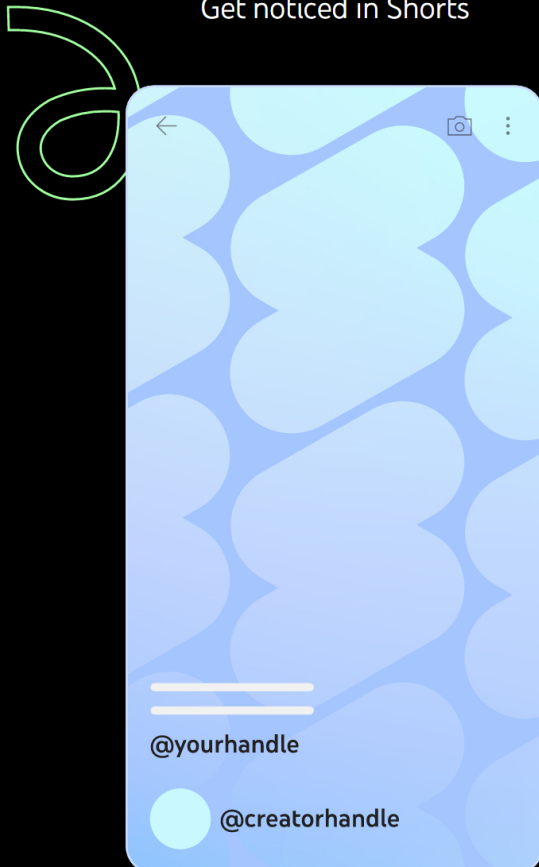

## Handles & channel URLs

Your new handle will become a part of your channel URL. In most cases, your personalized URL will become your handle. You can use your handle to direct people to your channel when they're not on YouTube.

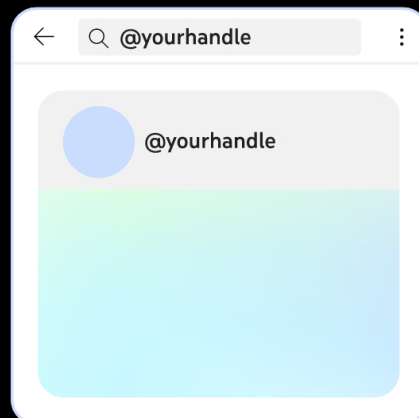

For example, if your handle is @user123, your channel URL will be  
<https://youtube.com/@user123>

## Things you can do with a handle

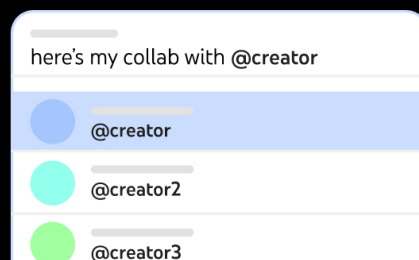

Get noticed in Shorts

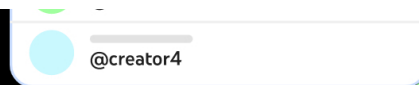

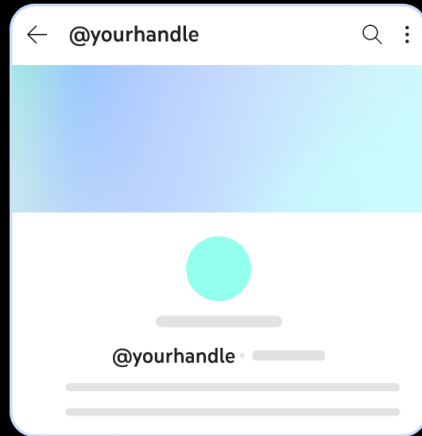

Identify yourself in a unique way

People can tag you in videos

Let others find you on YouTube

Connect with others in the  
YouTube community
